Introduction

Thank you for downloading “Alphabet Smash Block Letter Pages”!

This PDF can be used in conjunction with Alphabet Smash curriculum or in any way that will enhance your child’s education. Each week gives ideas of things to glue onto these block letter pages.

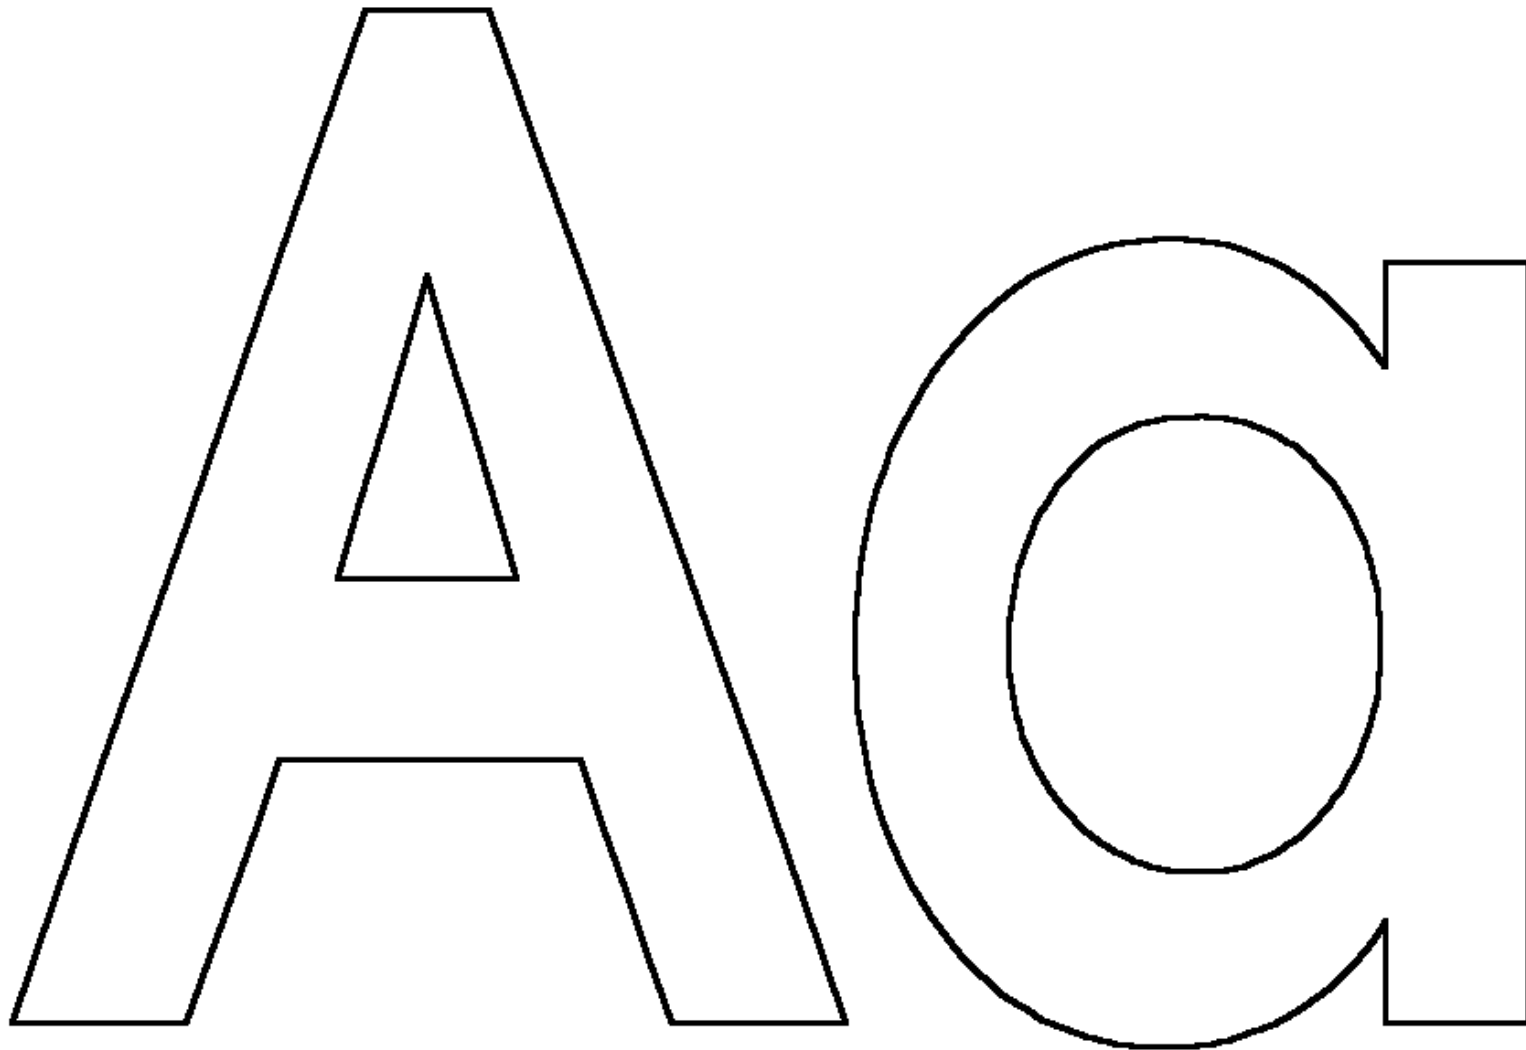

The Alphabet Smash Book that your child creates, is a portfolio that combines all things included in the Alphabet Smash book that you will do with your child or that your child achieves independently. It is a wonderful keepsake and can record what your child accomplished for the year.

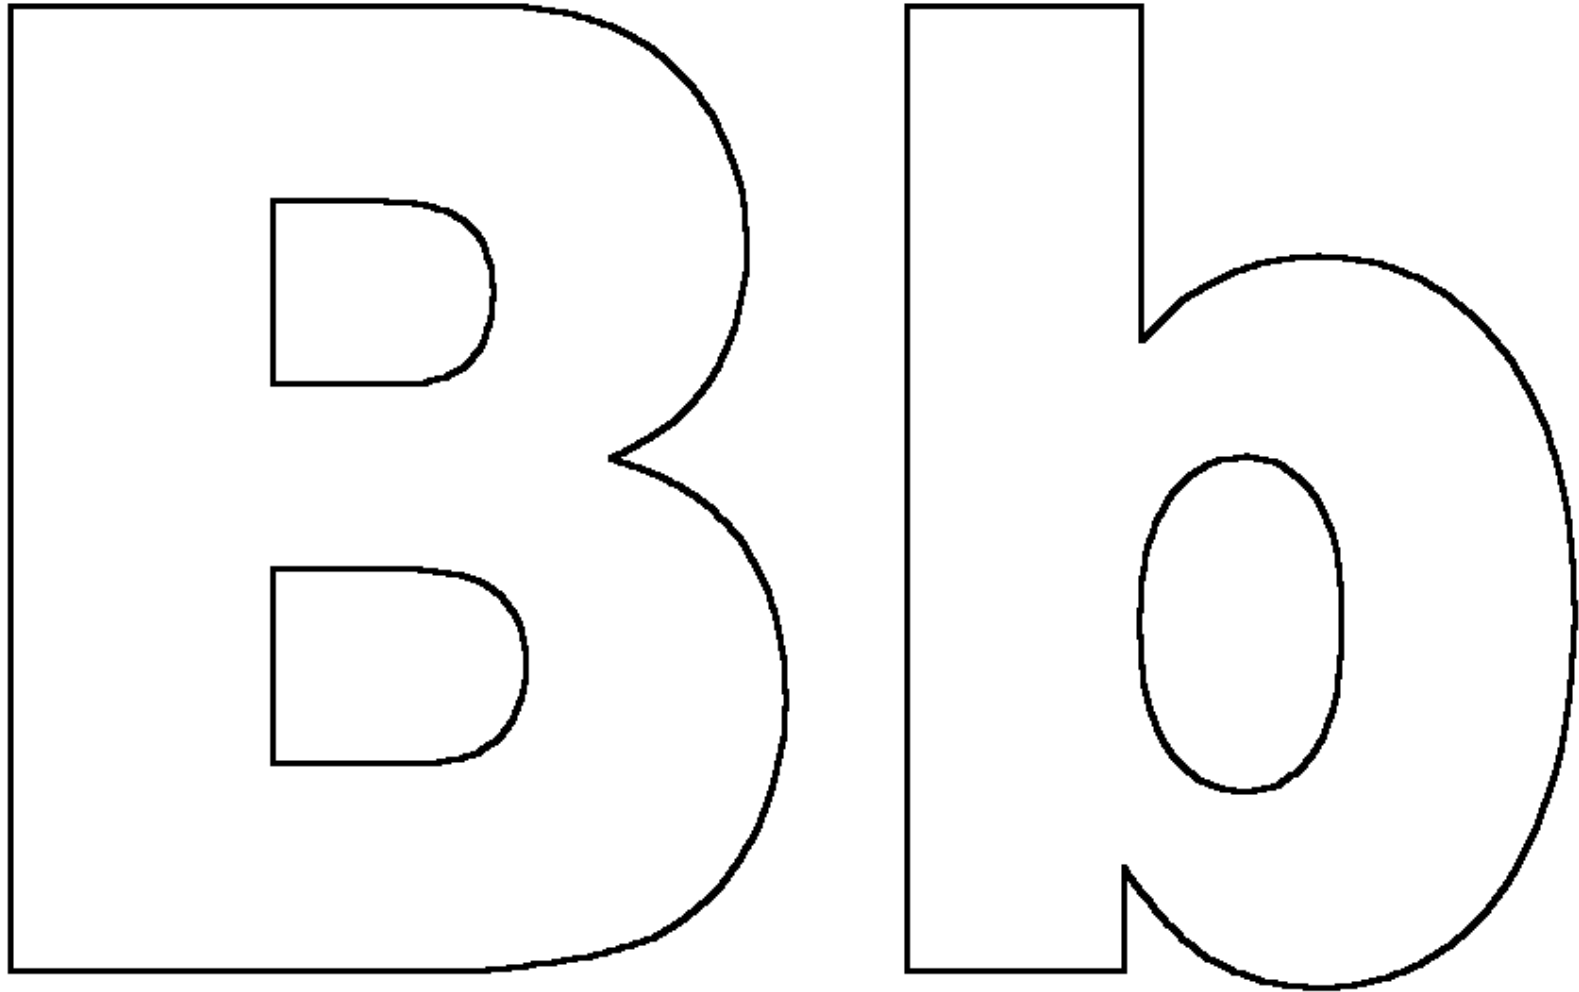

Create an **Alphabet Book**. Your child may pick out a notebook or I recommend a slip cover notebook that you can tuck a cover into. Find these at Wal-Mart, a local office store or even at yard sales and thrift stores. Decorate a cover with your child.

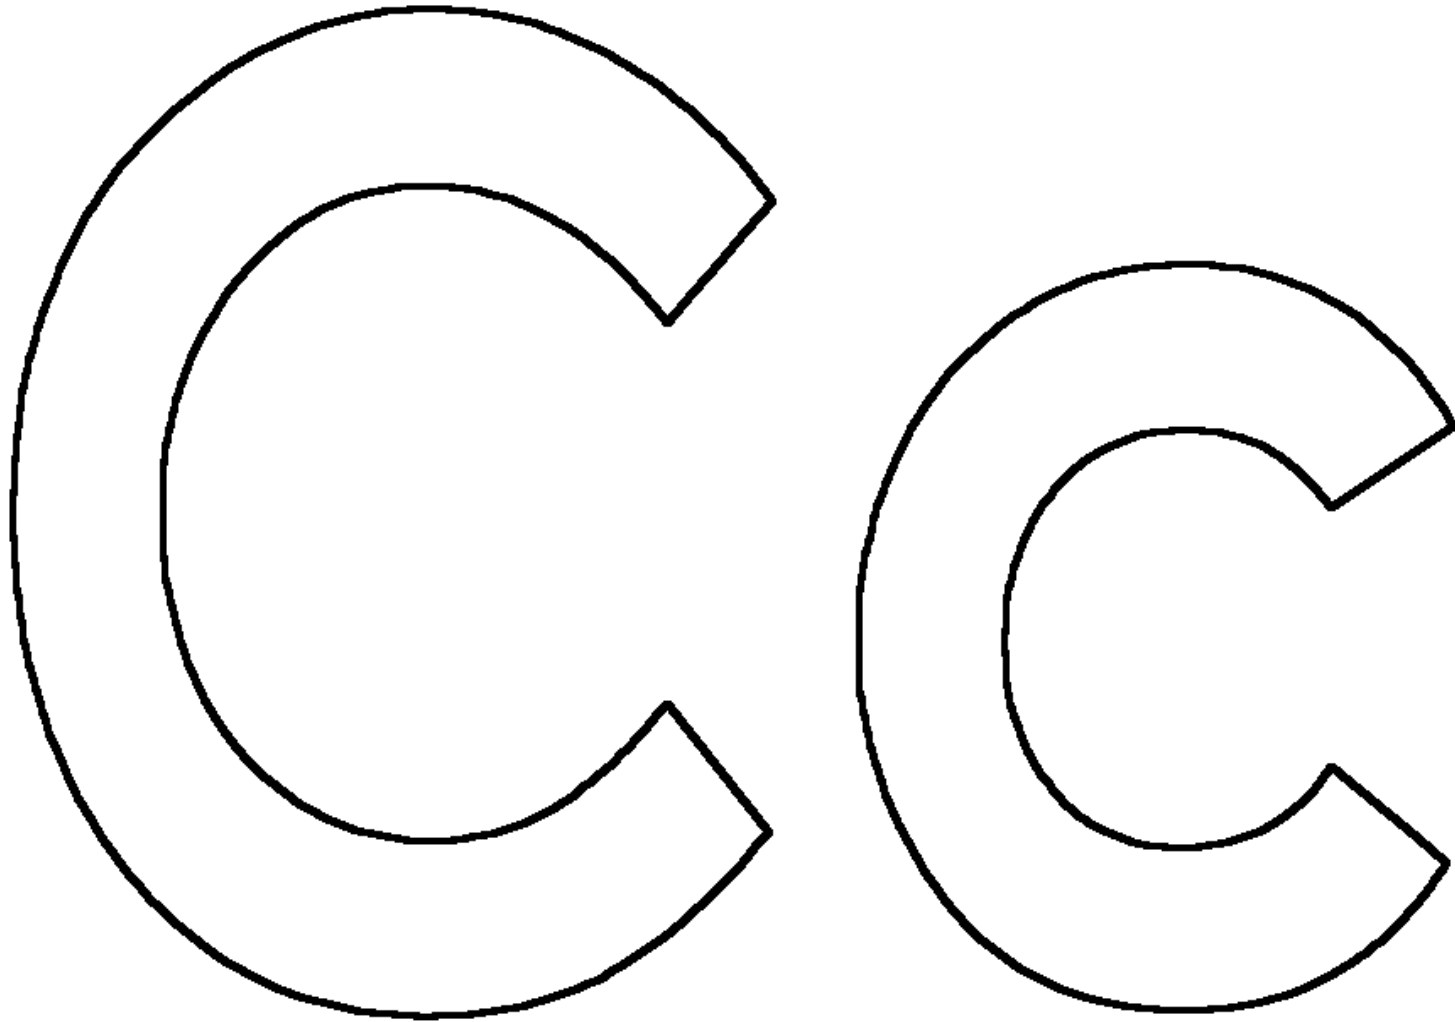

Remember to have fun.

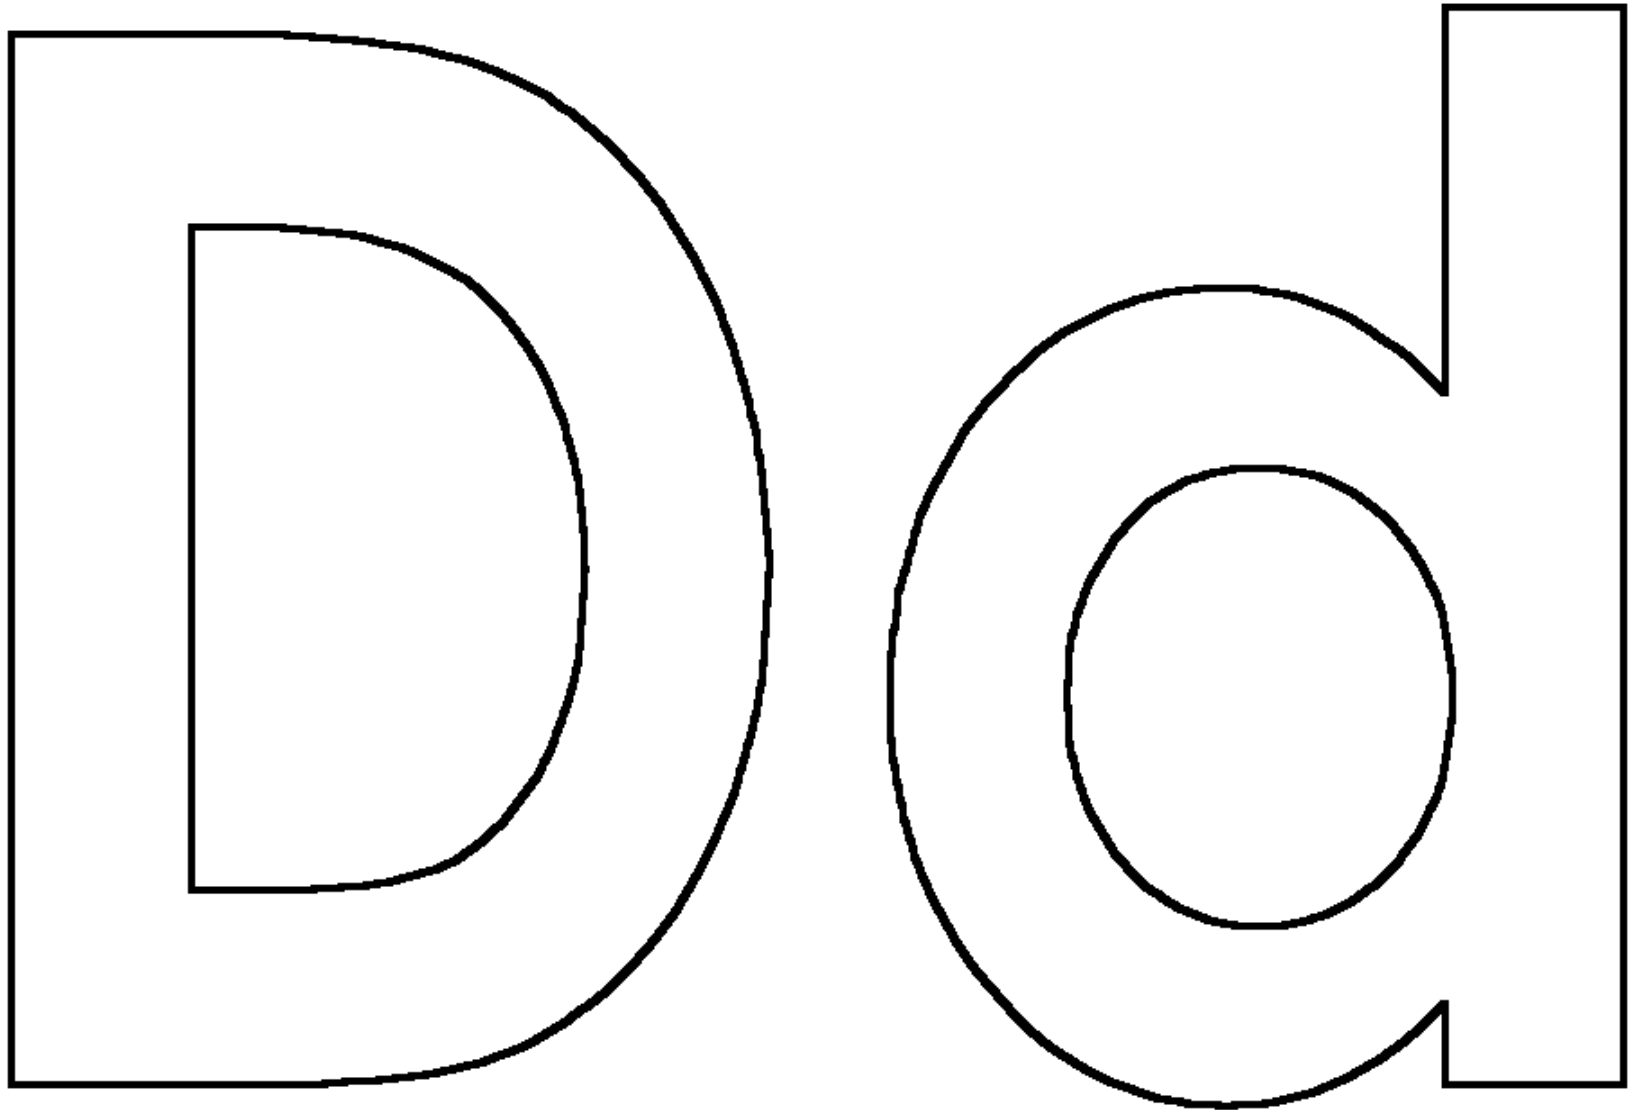

Glue things that begin with each letter onto pages in your child’s notebook. ©Alphabet Smash Curriculum gives ideas for each letter of the alphabet. Keep these in the child’s alphabet notebook for each letter.

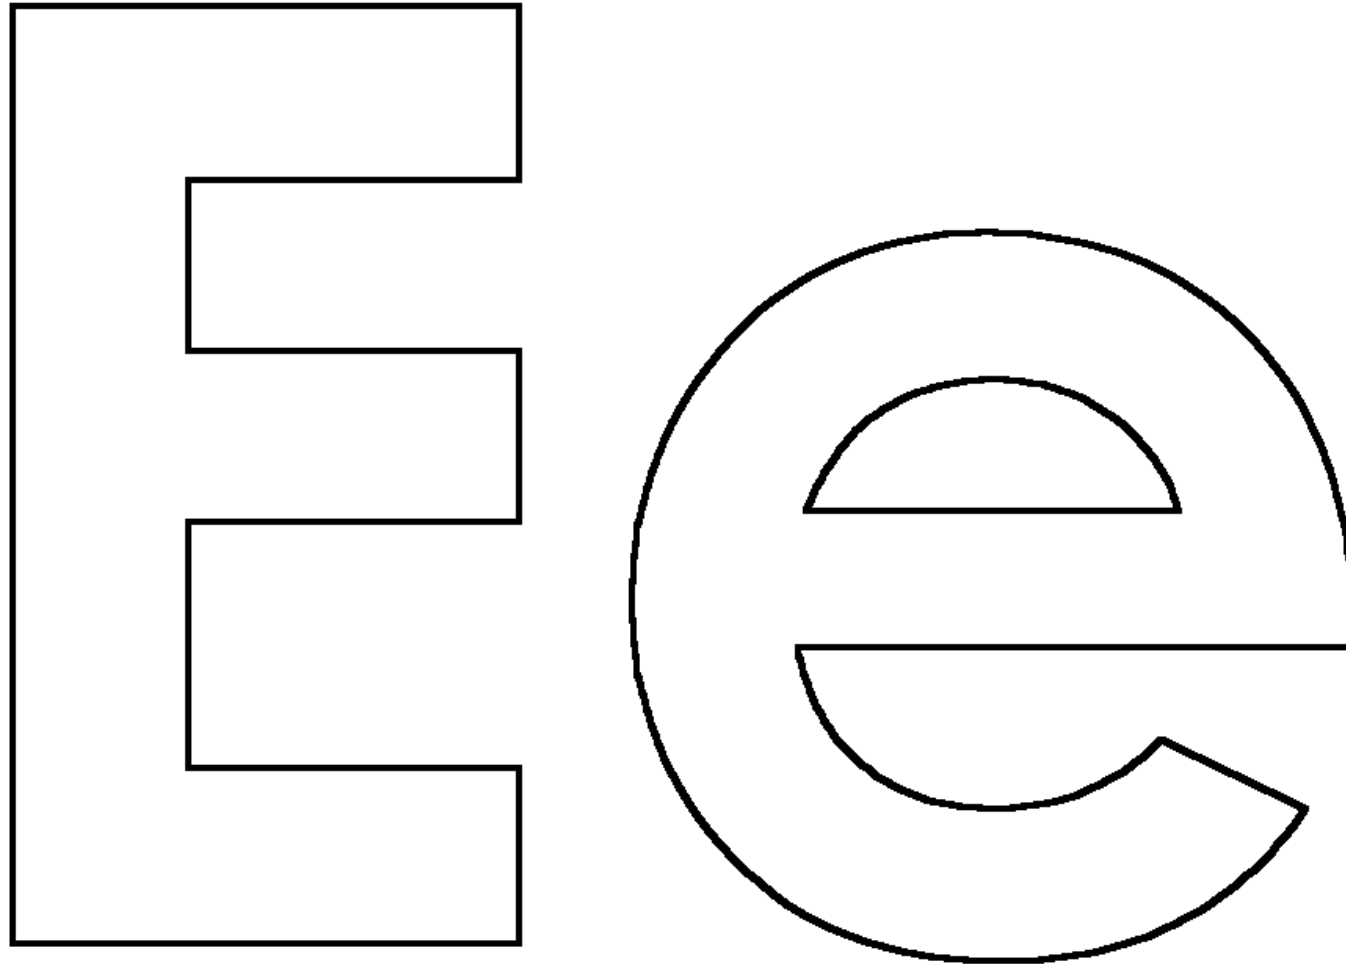

Don’t worry about perfection. Allow your children to take ownership of their work. Allow them to make mistakes and to enjoy the process and the sense of accomplishment in the successes.
